WHAT'S THE BEST WAY TO WASH YOUR HANDS?

If you need to cough or sneeze, do it into your elbow

Wet your hands with clean, running water. Make sure the water isn't too hot!

Use soap and lather up for about 20 seconds.

Make sure you get in between your fingers, on the backs of hands, and under the nails where germs like to hang out. And don't forget the wrists!

Rinse and dry well with a clean towel.

If you feel unwell, have a cough or find it hard to breathe, you should tell your parent/guardian
